

DATA SHEET

Digital Mortar Mixers

General description

A robust device for the efficient mixing of cement mortars, this mixer is a table mounted unit with planetary mixing action and a bowl and beater that are easily fitted and removed. The front grill, when opened, automatically stops the machine for operator protection conforming to CE requirements.

The machine is supplied complete with bowl and stainless steel beater conforming to EN Standards.

The machine operates with a dedicated and easy to use display and keyboard control. Either Standard speeds or user defined speeds can be easily selected (also adjustable during mixing).

The machine can be supplied, on request, complete with a sand open-type hopper. See accessories

Main features

- **Complete with bowl and beater conforming to EN Standards**
- **Continuously variable speed (VFD technology)**
- **Either Standard or user defined speeds can be easily selected (also adjustable during mixing)**
- **Blade/Planetary speeds adjustable from 30/13 to 380/165 rpm, depending on the mix consistency**
- **3-points bowl supporting system allowing precise adjustment of the gap between bowl and beater**
- **Digital mixer, user friendly interface with functional alphanumeric display 2 x 16 characters and keyboard**
- **Micro-switch preventing the machine to be started without bowl, and emergency stop button**
- **Conforming to CE requirements**

Specifications

Planetary speeds: 62 and 125 rpm or user defined

Beater speed: 140 and 285 rpm or user defined

Bowl capacity: 5 litres

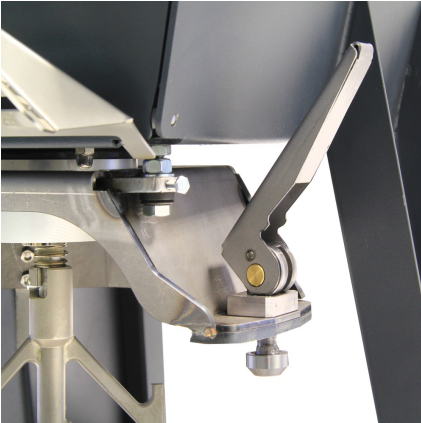

Alphanumeric display 2 x 16 characters

Power: 370 W

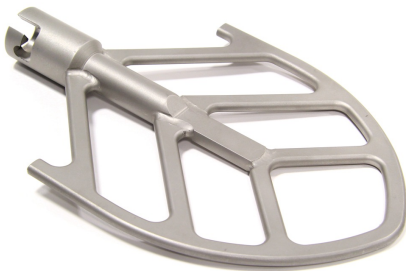

Overall dimensions: 465x540x620 mm (lxd x h)

Weight: 35 kg (approx.)

DATA SHEET

65-L0512 - Detail of the 3-points bowl supporting system allowing precise adjustment of the gap between bowl and beater

Stainless steel beater conforming to EN 196-1, model 65-L0512/EN

Products

65-L0502

Digital mortar mixer, 5 liters capacity complete with mixing bowl and beater.

65-L0504

Digital mortar mixer, 5 liters capacity complete with mixing bowl and beater.

Accessories and consumables

65-L0005/5

Hard rubber scraper

65-L0502/2

Spare stainless steel bowl for digital mortar mixer series 65-L050x, 5 liters capacity

65-L0512/EN

Stainless steel beater for mixer series 65-L050x and 65-L051x . Conforming to EN 196-1 if combined with mixer series 65-L051x.
